

THE EVENING NEWS.

THIRD YEAR—NO. 888.

BENTON HARBOR, MICH., TUESDAY, AUGUST 16, 1898.

TWO CENTS

CORBETT'S FATHER

Killed His Wife and Himself Today.

Despondent Over Financial Affairs.

The Pugilist Swooned When He Heard It.

San Francisco, Cal., Aug. 16.—Patrick Corbett, father of the ex-champion puglist of the world, James J. Corbett, deliberately shot and killed his wife this morning and then killed himself with the same gun.

For some time the world has been going against the elder Corbett and his financial affairs have been going from bad to worse. He has been brooding over these troubles and they led him to take his life and the life of his wife.

Asbury Park, N. J., Aug. 16.—When James J. Corbett was told of his father's terrible deed he almost went into hysterics and then swooned away. When he recovered he refused to talk of the tragedy. It is not believed that he will endeavor to make the trip to San Francisco to attend the funeral.

ARMY IS TOO BIG.

Washington, Aug. 16.—The work of mustering out troops will begin today. It has been decided that as the war is over it is no longer necessary to keep such a large volunteer army.

Just what regiments will be mustered out is not yet known. The list is now being prepared.

BY THURSDAY.

General Shafter's Troops Will Be Homeward Bound.

Washington, Aug. 16.—In a dispatch from Gen. Shafter received this morning he states that he expects to embark the remainder of his command at Santiago by Thursday and he will leave himself on Saturday.

"DON'T LEAVE ROY."

Cablegram D. B. Kramer Sent to Capt. Graves.

In the cablegram to Dr. G. M. Bell last night the illness of Roy Kramer was mentioned. This afternoon Mr. Kramer sent the following dispatch to Capt. Graves:

"Don't leave Roy. Answer." Mr. Kramer does not want Company I to leave Cuba without bringing the sick with them and it would be a shame if the authorities ordered such a move.

A FINE TRIBUTE.

St. Joseph Fire Department Remembers Heroes of the Opera House Fire.

The fire department of St. Joseph is deservingly of much praise for the manner in which they have handled the affairs of the firemen's monument which is now being erected on the bluff in that city. A St. Joseph man was a little indignant this morning because the names of the Benton Harbor firemen who lost their lives were omitted from the stone and Fire Chief John Lindt explained that every cent was raised by the St. Joseph firemen for the purpose of honoring the members of their company who lost their lives and that the Benton Harbor fire department was preparing to erect a fine monument for the members of their company.

A Large Funeral.

A large number of friends and relatives followed the remains of Mrs. Sarah Winans to the grave. Many beautiful floral offerings testified to the love and esteem of many mourning friends. The coffin was covered with the red, white and blue. The Henry C. Rowe circle, of which she was an honorary member, attended in a body. Rev. E. A. Hoffman preached the sermon.

Buried This Morning.

Samuel Byers, the young man who lost his life while bathing in the St. Joseph river last Sunday was buried in the St. Joseph cemetery this morning. His brother was notified of his death but nothing has been heard from him.

25 pounds No. 1 flour for 45 cents cash at Michael & Beany's.

TWO ARRESTS IN THE ARMY

One a Private and the Other a Colonel.

PRIVATE DID DUTY.

Santiago, Aug. 16.—Yesterday a Cuban was shot and killed while caught in the act of stealing from the American camp. Such a furore has been created among the Cubans that in order to avoid trouble the sentinel who did the shooting has been placed under arrest. The officers however endorse the action of the sentinel.

COLONEL WAS BIGHEADED.

Newport News, Aug. 16.—A warrant was sworn out last night for the arrest of Col. Gunder of 106th Indiana by a man named Smith who accuses the colonel of kicking him out of the camp without cause or provocation and using language unbecoming an officer of the United States army or a gentleman.

GERMANY FALSE.

Has Been Helping Spaniards in Manila.

New York, Aug. 16.—The Journal's Manila special says: "The Spanish sergeant captured by the insurgents says that the Germans have been giving the Spaniards active assistance. He declared that the Germans had supplied the Spanish with two field guns and a large quantity of provisions."

COLOMBIA TO PAY.

The Italian Warships are Ordered Home.

Rome, Aug. 16.—The government of Colombia has accepted in its entirety the United States award in the Corrucci matter and has deposited twenty thousand pounds as security for the payment of the claim. The incident is therefore closed and the Italian warships have been ordered home.

A HAPPY ENDING

Spaniards Fight Americans and Then Inform Them "War is Over"

Havana, Aug. 16.—The last battle between the Americans and Spaniards in Cuba was fought Sunday morning when the converted lighthouse tender Mangrove bombarded Caibarien. The little Mangrove fired eighty-seven shells but no material damage was done. The Spanish gunboat in the harbor and the shore batteries feebly replied but failed to injure the Mangrove.

After the firing ceased the Spanish gunboat under a flag of truce informed the Mangrove's commander of the signing of the protocol.

AMERICAN TROOPS NOW OCCUPY THE CITY OF MANILA

Madrid, Aug. 16.—The official announcement was made here today that Manila had surrendered to the American forces on last Saturday. The surrender was made by Gen. Jandenes, who succeeded Augusti in command of the Spanish forces after the latter had fled to Hong Kong. The American forces occupied the city immediately after the surrender.

Washington, Aug. 16.—The news of the capture of Manila was received here with intense interest. It simplifies the work of the peace commission and enables the United States to demand the cession of enough territory to hold the city.

SOLDIER KILLED.

Saloon Row in Porto Rico Ends Fatally.

The Murderer Sentenced to Life Imprisonment.

Washington, Aug. 16.—The war department received a message from Gen. Gilmore at Ponce this morning stating that Private LaDuke had been sentenced to life imprisonment for murdering Private Stafford during a saloon row.

Will Forgive Germany.

Washington, Aug. 16.—The state department is disposed to make no criticism regarding the action of Germany in taking Augusti and his family from Manila on a German cruiser. The right of asylum on neutral vessels is a provision of international law which has the hearty support of the United States.

Allison Visits McKinley.

Washington, Aug. 16.—Senator W. B. Allison had a long conference with President McKinley this morning but he refused to talk of his mission.

Wheat Holds Even Today.

Chicago, Aug. 16.—Closing prices on the board of trade today: Wheat, 69½; corn, 32½; oats, 20½.

The Great Naval Powers.

The Army and Navy Year Book rates the navies of the world as follows: 1. Great Britain; 2. France; 3. Russia; 4. Italy; 5. United States; 6. Germany; 7. Spain; 8. Japan; 9. Austria; and 10. Netherlands. Under present naval contracts, Japan in 1899 will go to the fifth place, crowding down the United States and Germany one point.

Keen Scent of Lobsters.

Lobsters can smell as well as animals that live upon the land. A piece of decayed meat suspended in the water in the locality where lobsters are abundant will soon be completely surrounded by a greedy, fighting crowd.

TO ARRANGE PEACE

Sampson and Schley To Be on Commission.

Men Who Fought Will Have a Word About Peace.

Washington, Aug. 16.—It is semi-officially announced this morning that the following will be the Porto Rican and Cuban commissioners. Cuban commission: Gens. Wade, Butler, Admiral Sampson; Porto Rican: Gens. Brooke, Gordon, Admiral Schley.

Later—The above commissioners have been appointed.

Spain Has Troubles of Her Own.

Madrid, Aug. 16.—The civil guards are unable to capture the Carlists remaining in the vicinity of Castlon. Several skirmishes have taken place. The government fears that the failure to capture them will encourage the Carlist chiefs who are gathering in the towns across the French border.

Indications That the War Was Only the
Beginning of the Difficulty—Statement
That the Cubans Must Be Put Down
"with an Iron Hand"—Blanco Cables
Madrid His Resignation in Evident Dis-
gust at the Surrender—Augustin Arrives
at Hong Kong—Manila Reported Fallen.

Washington, Aug. 16.—The depart-
ment of state has just issued the fol-
lowing: "The following dispatch was
received at the department of state at
11:15 p. m., Aug. 15, from Consul Wild-
man, Hong Kong: 'Augustin says Dewey
bombarded Manila Saturday; city
surrendered unconditionally. Augustin
was taken by the Germans in a launch
to the Kaiserin Augusta and brought
to Hong Kong. I credit the report.'"

Hong Kong, Aug. 16.—General Au-
gustin, captain general of the Philip-
pines, arrived by the Kaiserin Augusta.
He refuses to be interviewed and will
say nothing more than that he is going
to Spain at the first opportunity. It is
a significant fact that while the fastest
German cruiser has brought General
Augustin she brings only a small pack-
age of mail for the German consul. The
precise facts are not known, but it is
supposed that General Augustin fled
from the Philippines.

Later.—Another dispatch from Hong
Kong says: "General Augustin told a
lady that Admiral Dewey demanded the
surrender of Manila in an hour. The
Spaniards declined to surrender and
Dewey began the bombardment and the
Spaniards hoisted a white flag. General
Augustin immediately jumped into a
German launch which was in waiting
and went to the Kaiserin Augusta,
which sailed before the bombardment
was concluded."

Santiago de Cuba, Aug. 16.—Trouble
with the Cubans is breeding. Their at-
titude is one of sullen hostility toward
Americans. The better classes in Cuba
favor the annexation of the island to
the United States, and a majority of
the masses are ready and anxious to
work and accept the shelter and protec-
tion afforded by an American protec-
torate, but they are influenced by a cer-
tain class of rabid orators and breeders
of sedition and rebellion against any-
thing smacking of law and order. This
inflammatory class demands and urges
the recognition of Cuba for Cubans, and
spurns all offers or suggestions tending
to prosperity under an American pro-
tectorate, and excites popular discon-
tent. This is exactly the class that
pushes itself most into evidence and
whose views and opinions are most
overheard and published.

Going to Recapture Santiago.

The advice of these men to the Cu-
bans is to repudiate all offers of peace
or a cessation of hostilities, and to look
upon an armistice as an agreement be-
tween the United States and Spain on
their own account, and not binding up-
on the free and independent state of
Cuba, whose liberating army not only
repudiates pacification but will ignore
the armistice to the point of continuing
to wage war and shooting every Span-
iard in the field. A wild rumor is afloat
to the effect that the Cuban army will
attack Santiago and capture it to the
glory of the Cuban arms as soon as the
American garrison is weakened. This is
directly traceable to the same source.

Suppression "With an Iron Hand."

The influence exerted by such a body
of men against law and order is for-
midable. This hysterical people de-
mands suppression with an iron hand.
While still in embryo, this influence is
already felt among certain classes who
refuse to work or serve the government
until all doubt as to the freedom
and independence of their country is
dissipated. A knowledge of this condi-
tion is imperative to the molding of fu-
ture policy and to explain whatever
harsh steps may be rendered necessary
with the insurgents.

But This Is Another Story.

Santiago de Cuba, Aug. 16.—[Copy-
right, 1898, by the Associated Press.]—
A secret meeting was held last night at
the palace between the commanding of-
ficers of the American army and the
Cuban leaders. It can be said with good
authority that General Garcia was pres-
ent. The information obtained is to the
effect that the Cuban situation was
thoroughly reviewed and that it was
resolved to disband the Cuban army
and that the United States should pay
the men off. This involves the expendi-
ture of \$15,000,000.

BLANCO GIVES UP THE FIGHT.

He Could Not Be Constant and Manage
the Evacuation of Havana.

Havana, Aug. 16.—General Blanco yes-
terday published the following address
to the inhabitants of Cuba:

"It having been resolved by the Mad-
rid government to conclude peace with
the United States, I consider my mis-
sion in this country ended and have so-
lited my relief from duty. I could not
urge upon you a pacific solution of the
existing struggle, when not long ago I
advised you to maintain the war in any
event. I came to the island of Cuba, as
is well known to all, in critical circum-
stances, without fear of the difficulties
which I must encounter and animated
by the hope of pacifying the island and
saving it for Spain, with the co-opera-
tion of all political parties, and without
any other ambition than to render a
service to my country, which I so fer-
vently love."

"Since the nation's government, which
is surely inspired by the great interests
of patriotism and a desire also to as-

sure your proper interests and those of
the other colonies, believes the moment
has arrived to make peace, it is our duty
faithfully to second her in her purpose.
But it cannot be that I am the one
called upon to perform a political duty
which does not agree with my declara-
tions, with my acts and with my con-
victions. I see myself obliged to leave
you at the present painful and difficult
moment. Nevertheless I will not do it
without advising you to maintain the
calmness and prudence so necessary to
save the legitimate interests of Spain in
Cuba, which represent the fruits of your
labors, and thus I think I have rendered
my last and most disinterested service
to Cuba, to her inhabitants, and espe-
cially to the city of Havana."

BLANCO SHOWS HIS DISGUST.

Sends in His Resignation to Avoid Having
to Surrender.

Madrid, Aug. 16.—The government has
received from Captain General Blanco a
dispatch tendering his resignation. The
reason given by General Blanco for re-
signing is that he does not wish to su-
perintend the evacuation of Cuba. The
government is also informed and Gen-
eral Augustin, governor general of the
Philippines, will leave Manila for Spain
by the first mail steamer, giving his
command to the second in rank. [This
may account for the arrival of Augustin
at Hong Kong.]

Madrid, Aug. 16.—Duke Almodovar de
Rio has received an intimation that the
Cuban blockade has been raised and ca-
ble communication restored. Numerous
vessels are being prepared in Spanish
ports to take provisions to Cuba. The
next cabinet council will consider the
question of summoning the cortes. Senor
Sagasta, the premier, is hopeful that the
ministers will be agreed upon this point.
The news of peace was heartily wel-
comed in the Spanish coast towns, and
the families who fled, fearing an at-
tack by Commodore Watson, are now
returning.

Hong Kong, Aug. 16.—The Spanish
consul here has not yet sent to Manila
the news that the protocol has been
signed, and probably the Spaniards at
Manila will discredit the account to be
brought them by the British steamer
Australian, as she was chartered by the
Americans. The opinion here is that
the Germans have arranged matters
with Captain General Augustin. The in-
surgents now at Hong Kong are not sat-
isfied with the terms of peace proposed
by the Americans.

WAR ENDS IN PORTO RICO.

Little Fight on Sunday—White Flags Now
Fly All Along the Line.

Guama, Porto Rico, Aug. 16.—General
Brooke sent Colonel Richard to the
Spanish lines Sunday under a flag of
truce with a notification of the signing
of the peace protocol. He was met by
Commandant Cervera in person. After
the communication had been read felici-
tations and cigars were exchanged.
Flags of truce are flying over our out-
posts. It was suggested that they be
also planted over the Spanish lines, and
the suggestion was accepted.

General Schwan's column was at-
tacked Sunday between Mayaguez and
Lares. As the Eleventh Infantry under
Colonel Burke was descending the val-
ley of the Rio Grande they were fired
upon from the hillside by a force of 1,500
who were retreating toward the north.
The fire was returned and the Spaniards
were repulsed with, it is be-
lieved, considerable loss.

Colonel Soto, the commander of the
Mayaguez district, was wounded and
was afterward overtaken in a wayside
cottage. He was attended by two ser-
geants, who surrendered. The Ameri-
cans suffered no loss. The artillery and
cavalry were not engaged.

General Schwan had not received
news of the signing of the protocol
when the action occurred, but obtained
it Sunday afternoon. The reports from
General Miles are meager.

Recent Deaths at Santiago.

Washington, Aug. 16.—General Sha-
fer's report of the health conditions of
his troops at Santiago, says that on
Aug. 14, there were 2,715 sick; new cases,
129; deaths on Aug. 12, included Lewis
F. Wick, company G, Thirty-third
Michigan, yellow fever; Private Frank
Burton, company L, Thirty-third Michi-
gan, yellow fever; and Private John E.
Grigg, company I, First Illinois, typhoid
fever.

No Fighting for the Fifth Illinois.

Washington, Aug. 16.—Orders were
issued by the war department yesterday
for the Third Kentucky, Fifth Illinois
and One Hundred and Sixtieth Indiana
regiments of volunteers, which were
gathered at Newport News under or-
ders to proceed to join General Miles in
Porto Rico, to proceed to Huntsville,
Ala., as soon as transportation is ready.

Wisconsin Convalescents at Chicago.

Chicago, Aug. 16.—Forty-seven con-
valescent volunteers in charge of Lieut-
enant Zuehlke, company C, Second
Wisconsin, arrived in Chicago from
Charleston, S. C., last evening. They
will remain in Chicago for a couple of
days and then start for their homes in
Wisconsin. All the men belong to the
Second and Third Wisconsin.

Michigan's Financial Condition.

Lansing, Mich., Aug. 16.—State Treas-
urer Steel will, during the present week,
issue his report for the fiscal year ended
June 30, 1898. The receipts of the state
from all sources during that period
were \$5,122,859.36 and the expenditures
\$4,690,534.79. The balance in the state
treasury at the close of the year was
\$1,216,212.61. The balance at the close
of the previous year was but \$783,888.04.
Owing to the war with Spain this re-
port shows an increase in the bonded
indebtedness of the state for the first
time since 1866. The increase is \$400,000
in war bonds.

Robert P. Porter Given a Post.

Washington, Aug. 16.—Robert P. Por-
ter, the superintendent of the last gen-
eral census of the United States, has
been appointed a commissioner to ex-
amine and report upon the finances,
banking systems and customs laws of
Cuba and Porto Rico.

Another Failure at Waverly.

Springfield, Ill., Aug. 16.—Mendel

carpets, etc., one of Waverly's most
prominent men, failed yesterday be-
cause of the failure of the Bank of

THE EVENING NEWS.

THIRD YEAR—NO. 888.

BENTON HARBOR, MICH., TUESDAY, AUGUST 16, 1898.

TWO CENTS

REMARKABLE WOMAN.

Was Mrs. Sarah Winans, Who Was Buried Today.

Her Efforts in Building Benton Harbor College.

She Fluently Spoke and Taught Five Languages.

Was An Angel to Many Sick and Wretched.

Mrs. Sarah Winans, whose funeral was held from the First Congregational church this afternoon, was one of the most remarkable women Benton Harbor ever knew. She was highly educated, and a woman of great power. The building of Benton Harbor college was largely due to her efforts. Her life was filled with doing good. In wretched homes where sickness came and where there were no friends to minister by the side of suffering and dying beds Mrs. Winans could very often be found. Her life story is full of interest.

Sarah Atkinson was born in Westport, Ky., November 8, 1830. She was educated in a ladies' seminary in Bardonia, Ky., which was established by her father, Rev. John Atkinson, her mother being principal of the same. She graduated at the age of 16 and at once entered a school as teacher in Courtland, Alabama being required to teach Italian, French, German, Spanish and Latin, besides music, drawing and embroidery. At the age of 24 she became principal of her father's seminary.

After the battle of Perryville many wounded soldiers, confederates and federals, were left behind and the seminary was turned into a hospital, it being left to the ladies of the town to care for them and foremost among the workers was Miss Atkinson. It was here that she met Dr. Winans who held the position of army surgeon. They were married October 8, 1853, and a year later moved to Elkhart, Ind. In November, 1865, they came to this city and bought the fruit farm, across the Paw Paw, named the Courtland Hill fruit farm. They at once became identified with all interests pertaining to the growth of the then country village.

She with her husband were among the sixteen charter members of the First Congregational church organization of 1866. From that time until three years ago Mrs. Winans worked untiringly in all departments of church work, being a member of the ladies' aid society, the missionary society and for many years a teacher in the Sunday school. Three years ago she began to fail and from that time until her death was confined to her room. She was patient in her suffering and although unable to attend the services in her church home she sent many loving messages showing that her interest was as keen as ever. Her last message to the Christian Endeavor society, sent a few weeks before her death was: "For I know in whom I have believed and am persuaded that He is able to keep that which I have committed unto Him against that day."

About two months ago she was taken to a Chicago hospital where it was hoped she would regain her health but she continued to fail and died very suddenly Saturday morning. She leaves two sons, Dr. C. A. Winans, now in Alaska, and Ed. of this city. She was beloved by everyone and numbered the whole community as friends.

David Newcombe and wife, of Henderson, Ky., C. J. Atkinson, wife and son of Bardonia, Ky., Mrs. M. A. Smith, of Elkhart, Ind., and Mrs. L. M. Winans, of Chicago, were present for the funeral.

Many stories are told of her work work among the poor. Many times with her husband she went to the homes of the wretchedly poor and degraded, caring as tenderly for them as for her own.

She was the prime mover in the establishing of the present Benton Harbor college. Dr. Edgcomb, who was principal of the high school, had become convinced that the town could support such an institution and that Mrs. Winans was the one to assist him. She was sent for and after a conference it was decided that Seeley McCord was the man to apply to for aid. Mrs. Winans went directly to Mr. McCord, laid the case before him and in a few days the lot was bought. Mrs. Winans circulated the first subscription paper and soon funds were provided, the building was erected and furnished and Benton Harbor possessed a college. The building then stood on the site where the Catholic church stands at present.

THE GREAT WILD WEST.

Pawnee Bill's Injuns Will be Here August 27.

The Rochester Herald says of the great show that will visit this city on Saturday, August 27:

Pawnee Bill's Combined Shows gave two performances here yesterday, and we have never seen larger or better

pleased audiences at any exhibition in this city. The Mexican Hippodrome races are exciting and wonderful, and the reproduction of the Mountain Meadow massacre and a vivid and most realistic drama of life in the land of the setting sun, was well worth double the price of admission. The lassoing of wild buffalo and long-horned Texas steers, the rifle shooting of Miss May Lillie, the wonderful performance of riding and driving at the same time, 35 wild mustangs, are all grand features. This show has the reputation of performing all its advertised. It deserves it.

CRYSTAL SPRINGS CAMP MEETING A SUCCESS.

Presiding Elder Van Schoick is Praised on All Sides for Its Success.

The Methodist Episcopal camp meeting at Crystal Springs this year surpassed all previous meetings on the grounds. The attendance on Sunday was over 5,000.

Rev. W. P. French who returned yesterday is elated over the success of of this year's camp meeting. Concerning it he said:

"I believe that next year the grounds will be too small to accommodate the people who will attend. Rev. Dr. Van Schoick has been able to pull the meeting from an old and time-honored rut and place it foremost among the camp-meetings of the country. The best talent to be obtained was had this year and the programs every day delighted the people who attended."

MAKING DEMOCRATS.

The organ of the late lamented municipal campaign is now trying to defeat Congressman Hamilton by the same methods that it defeated Mr. Hobbs and elected Mr. Brant, the first democratic mayor of this republican city.

Against more than 90 per cent of the people of this city and vicinity it has set up its own narrow judgment and to the entreaties of the solid republicans, men who have not sought consular or other official places as rewards for long and faithful years of party service, it sneeringly applies the epithet of "free silverite."

The republican party was formed by men who loved liberty. It has lived and flourished because of its belief in the majority to rule. The members of the party have stood aghast at the election frauds in southern states where the will of the majority was suppressed with shot guns, and they are just as much opposed to the idea that they are to be ruled at home by a few self-constituted bosses.

The more the Palladium abuses the republicans who have been tricked in a sneaking way the smaller will be the vote of Congressman Hamilton at the fall election. The Palladium elected Brant and it now seems determined to bury Hamilton with Hobbs. The democrats rejoice over their republican ally.

IN appointing only military men who had a hand in the war as commissioners for the evacuation of Cuba and Porto Rico, President McKinley will have the approval of the country. Statesmen out of a job should not share in what glory there may come in settling up the war.

IF Benton Harbor can become known as the greatest sugar manufacturing point in Michigan there will be no objection to Grand Rapids continuing as the leading furniture city or Detroit as the political storm center.

IF Congressman Hamilton allows that trocha to be built against 90 per cent of the patrons of the Benton Harbor postoffice none of them will take their chances in trying to break through.

PROBLEM TO SOLVE.

Reconstruction on United States Lines of the Conquered Spanish Territory.

PRESIDENT IN DAILY CONFERENCE.

Getting the Views of Prominent Public Men—Gen. Lee Gives McKinley Some Points and Also Tells an Interviewer His Idea of the Work to Be Done in Cuba—Secretary Day on a Vacation That May Be Permanent—Naval Parade To Be Given at Gotham.

Washington, Aug. 16.—The reconstruction of affairs in Cuba, Porto Rico and throughout the Spanish West Indies is receiving earnest consideration in official quarters, and at the White House yesterday the president saw a number of prominent callers in reference to this reconstruction of our new insular dependencies. General Fitzhugh Lee spent some time with the president going over the condition of Cuban affairs. While no announcement was made the impression prevailed that General Lee would be one of the Cuban military commissioners to be named within a few days. Acting Secretary Allen, of the navy, also saw the president concerning Cuban affairs. It is probable that an American naval vessel will go to Havana harbor before long, and at least two naval vessels will be ordered to Havana when the military commission assemblies there to determine upon the details of the Spanish evacuation.

Day's Retirement Near at Hand.

Secretary Day also conferred with the president, and later determined—the peace terms being matured—to take a week's vacation. He will go probably to Canton. Assistant Secretary Moore will be acting secretary of the state department during Judge Day's absence. The secretary's retirement from the head of the department is likely to follow soon after his return from Canton, and it may come during his absence, although there was no outward evidence yesterday that he was about to close his connection with state affairs.

Naval Display at New York.

The navy department decided during the day to yield as far as practicable to the public desire at New York for a naval review of the ships of Admiral Sampson's fleet. Accordingly Acting Secretary Allen has issued an order that "upon arrival in New York harbor the fleet will steam up the North river as far as General Grant's tomb, fire a salute and steam back to the anchorage. It is expected that the fleet will reach New York on Saturday, the 20th inst." The plan is to have Admiral Sampson meet off Sandy Hook with orders for the procession up the North river. It is expected that the fleet will be off Sandy Hook some time Friday night, but they will lie outside the harbor until Saturday morning.

Naval Reserve To Be Relieved.

The navy department is taking steps to reduce the force of naval militiamen called into service from the several states. The Minneapolis is to transfer part of her crew to the Yosemite, thus releasing the Michigan naval militiamen who man the Yosemite. The Columbia is also to transfer her crew to the Dixie and other auxiliary craft, thus allowing the naval militiamen on these auxiliaries to come home. In this way the naval service will speedily be returned into the hands of the regular officers and crews.

FITZHUGH LEE ON CUBA.

What Work Will First Have To Be Done on the Island.

Washington, Aug. 16.—Major General Fitzhugh Lee, in command of the Seventh army corps at Jacksonville, was in conference yesterday with the president and the war department authorities. He came on a special telegraphic summons from Secretary Alger and it was with the latter that he conferred for an hour with the president. General Lee's experience as consul general at Havana has given him an intimate knowledge of Cuban conditions, which will be availed of by the administration. It is generally expected that he will head the military commission which will adjust affairs in Cuba and also he has been strongly urged for the governorship of that island after the functions of that commission cease. On both of these points, however, General Lee asserts he knows nothing. He would not speak of the subjects discussed or as to his hasty trip here, beyond saying he had been talking over matters in Cuba generally.

Then he added: "The first work which will have to be done in Cuba will be to make arrangements by which the municipal machinery can be put in operation in all the towns and governmental machinery throughout the island for districts. There will have to be a military control, I suppose, until such a time as the people interested can organize and put into operation a government, which should be stable and strong enough to impartially protect the interests of Spaniards, Americans, Cubans, and the peoples of all other nationalities now on the island or who may hereafter go there."

"Is there a probability of Spanish interests suffering through the Cubans?" "The Spanish property holders, merchants and all other classes of Spaniards, naturally would unite with all the rest of the conservative inhabitants for the preservation of the interests of all the citizens, and I think they will help the natives and the Americans to maintain a strong, safe government. This would be natural, because no people would be any more interested than they are in maintaining property and all other rights. The most difficult problem to solve is the first organization of a preliminary form of government, as later the island will be very rapidly Americanized and all such questions will take care of themselves."

"As to the probability of the Cubans attaining a stable government, I presume that as soon as possible a proclamation will be issued setting apart a date for the holding of a general election for a chief executive of the island and for a legislative body to which all matters affecting the future of the island will be referred. This legislative

body probably will adopt a constitution and make the proper laws to put into operation the political form of government. As to the army of occupation which will be necessary to maintain our position with respect to Cuba, 45,000 men will be ample to garrison the whole island. Of this number possibly 25,000 would be stationed in and about Havana."

TRADE AND THE PEACE TREATY

To Be Discussed by a Gathering of Business Men at Chicago.

Chicago, Aug. 16.—Arrangements are being made for a conference of the leading manufacturers and business men of this state for the purpose of securing an expression of representative opinion on the question of what position this government ought to take for the furtherance and development of its trade and commerce in the formulation of the treaty of peace with Spain. The conference will be held under the auspices of the Illinois Manufacturers' association, at the Union League club in this city, Aug. 25, at an informal dinner. This action was decided upon at a meeting of the board of directors of the association yesterday at the Grand Pacific hotel.

The primary object is to secure an expression from representative men of the state, but among those invited to express their views will be John Wanamaker; Senators Davis, of Minnesota, and Fairbanks, of Indiana.

A couple of weeks ago the directors of the association passed a resolution that it was the sense of the association that the president of the United States instruct those having in charge for this country the conclusion of the treaty of peace to exact that the ports of all Spanish territory in the Pacific ocean be opened upon the most liberal terms to all products of American industry.

The secretary of the Illinois Manufacturers' association has been directed to write to the governor of each state in the Union and obtain from him a statement as to the opinion in his state as to what the government should do in this matter, and also to ask each governor if the sentiment is for or against the retention of the territory that has fallen into our hands through the fortunes of war. These latter will be read at the conference.

MILITARY COMMISSIONERS NAMED.

According to the Washington Post—Gen. Lee Not on the List.

Washington, Aug. 16.—The Post says today: "The announcement of the personnel of the military commissions for Cuba and Porto Rico may now be expected at any time. The president has practically determined upon the military and naval officers who will compose the commission. It is probable that the names will be as follows: Cuban commission—Major General J. T. Wade, Major General M. C. Butler and Admiral W. T. Sampson. Porto Rico commission—Major General John R. Brooke, Major General Theodore Schwan and Admiral Winfield S. Schley."

"It will be noticed that the name of General Fitzhugh Lee does not appear in the list of the Cuban commissioners. The omission is not unintentional. General Lee was originally slated for a place on the commission, but will not serve, owing to his desire to remain at the head of his army corps. It is expected that this corps, the Seventh, will eventually be sent to Cuba, and in that event General Lee will go to the island at its head, preferring this position to a commissionership."

Footprints of an Alleged Assassin.

Peotone, Ill., Aug. 16.—Dr. Kirkpatrick was called to his door at 3 o'clock in the morning. When he answered the summons a shot was fired at him through the door. The bullet missed him and was buried in the wall. Footprints in the road were followed to the house of Dr. Henry. The latter was arrested and put under bonds. He denies the attack on Dr. Kirkpatrick. The affair has caused much excitement. Professional jealousy is the only reason assigned for the alleged assault.

Made a Dive of 115 Feet.

St. Louis, Aug. 16.—As the result of a wager Miles McDonald, a teamster, dived from the top railing of the Eads bridge into the Mississippi and came out uninjured and triumphant. McDonald was talking with several associates about the feats of Steve Brodie, and made the assertion that he could dive as successfully as had Brodie. A wager followed and he performed the feat. The distance from the railing to the water is 115 feet, and the water about twenty-five feet deep.

MEMORIES.

The heart grows and sometimes when strange hands awaken
A strain, a melody of other days,
And backward through the past the mind goes straying
Till heartstrings snap in twain on which he plays.

I walked today along the village highway,
A sunny head was bared, a form bent low—
Ah, with a pang it brought to me sweet memories
Of one so like him in the long ago!

But bitter sweet, the memories that awaken
The love that filled each heart was never told,
For both of us were proud, and I, so fearful
My secret should be known, was silent, cold.

Ah, well, the same old tale, so oft repeated!
I knew not that he loved me—ah, you smile—
'Twas after years I learned it, but he never,
Never knew I loved him all the while.

Lessons on Living.

WHAT IS TAUGHT BY GRAVES FILLED WITH VICTIMS OF KIDNEY TROUBLES

Scientific Research Has Revealed a New Remedy, and its Trial by the Public has Proven its Value.

Prevention is better than cure—and sometimes if prevention is neglected there is no cure possible. Careless people get in the grip of frightful diseases that will drag them down through days and nights of pain, to the grave, because they neglect the common symptoms that indicate the danger of Bright's disease, diabetes, and various kidney complaints. Modern ways of living, especially in eating and drinking, have made kidney troubles terribly common, and the increase in deaths from this cause has led to the keenest kind of research by scientists to discover what remedy nature has provided.

After a thorough trial, thousands of cures have proven that the discovery of Morrow's Kidneoids will mark an epoch in the treatment of troubles due to derangement of the kidneys. They are unlike any other remedy in the world. Unlike many of the so-called kidney cures Morrow's Kidneoids acts at once, so that a long course of treatment is not needed. This feature of the new remedy is well illustrated by the case of W. H. Myers, a well-known resident of Springfield, Ohio, living at 484 Warder Street. Mr. Myers says:

"For a long time I suffered with kidney and urinary troubles. I had such a severe backache, and such a burning sensation when passing urine that I became alarmed. Nothing gave relief till I tried Morrow's Kidneoids, and one box quickly and completely cured me, and I have had no return of the trouble. Morrow's Kidneoids are surely a wonderful kidney remedy, and I advise all who are afflicted with such troubles to use them and be quickly cured."

The lesson that is taught by the graves needlessly filled with victims of kidney complaints is this: Don't neglect a backache, don't neglect headaches, excitability of temper or nervousness. They are signs of disordered kidneys, which, if neglected, may lead to deadly disease. One box of Morrow's Kidneoids will work wonders in improving the tone of your health.

You can get Morrow's Kidneoids from all dealers at 50 cents a box, or \$2.50 for six boxes. Sent postpaid by John Morrow & Co., Chemists, Springfield, Ohio, upon receipt of price.

RELIABILITY

is a quality some newspapers have lost sight of in these days of "yellow" journalism. They care little for truth and a great deal for temporary sensation.

It is not so with THE CHICAGO RECORD.

The success of THE RECORD rests upon its reliability.

It prints the news—all the news—and tells the truth about it.

It is the only American newspaper outside New York city that has its own exclusive dispatch boat service and its own staff correspondents and artists at the front in both hemispheres.

It is the best illustrated daily newspaper in the world.

Its war news service is unapproachably the best.

Says the Urbana (Ill.) Daily Courier:

"We read the war news in the other papers, then we turn to THE CHICAGO RECORD to see how much of it is true."

OMENS ON WARSHIPS.

SUPERSTITIONS WHICH GOVERN OLD
SALTS OF THE NAVY.

Hoodoo and Spells Which May Work All
Sorts of Evils on Board and Which
Must Be Carefully Guarded Against.
The Tattooing Habit.

The most picturesque superstitions of
the seas are those which govern a modern
man-o'-war. Every old salt in the
navy believes in hoodoo and spells
which may work all sorts of evils on
his ship and must be carefully guarded
against.

The powers of a ship's hoodoo com-
mence before the ship has entered the
water. It is a generally accepted super-
stition that if the first blow which is
struck the keel brings sparks the ship is
destined to suffer from a raking fire
from the enemy.

The old time practice of stealing a
piece of wood and imbedding it in the
prow for good luck is, of course, impos-
sible in the case of steel ships, though
it is considered lucky to have a piece of
stolen wood on board.

Another old superstition is satisfied
by placing a silver coin in some crevice
of the fighting top of the mainmast or
some place below decks where it touches
the steel mast. Originally it was a very
common custom to imbed a silver coin,
and preferably a Spanish coin, in the
wooden steps near the mast.

Figureheads have been in high favor
with sailors from remote antiquity.
Originally they were carved to repre-
sent some god or saint. Even today a
sailor would hesitate to sail on an iron-
clad without such protection.

The ceremony of launching a ship is
merely a concession to an old superstition.
The various formalities of ship
christening have been followed with
little variation for centuries.

In the early days of shipbuilding it
was the custom for the captain and the
crew to eat their first meal stowed away
in the mold loft. Their meal invariably
consisted of eggs and sulphur. From
this custom has come the present day
practice of providing cakes and wine
for the crew. And the old libation
which the priests used to pour over the
prow of the ship as she slipped into the
water has been replaced by the break-
ing of a bottle of champagne.

The modern man-of-war dashes into
the water with flags waving from every
masthead. In order to gratify this old
superstition it has been necessary to ex-
pend hundreds of dollars for the chris-
tening of a single ship. But no one be-
grudges this extravagance. In a way it
is necessary.

The good or ill luck of certain days
is still a belief among the sailors. Fri-
day is a day of ill omen, and Sunday is
usually a lucky day.

A superstition about women is a relic
of the old belief in witchcraft. It is
thought that a woman by throwing sand
in the air on shipboard can produce
violent storms. Not many years ago
some women who traveled on English
warships were tortured during a storm
to make them quiet the waves.

These barbaric beliefs, however, are
partially compensated by the supersti-
tion which sailors have held for centu-
ries that beautiful children bring a
blessing to a ship. The Neck was a
handsome boy with golden curls. It is
said that he is always accompanied by
a black lamb and carries with him a
golden harp. Our old salts have especial
confidence in a ship which is christened
by a child.

The average sailor is superstitious
about the ringing of the ship's bells.
In olden times the bells were blessed
before they were used. At present, if a
mistake is made in striking the hour,
the sailors insist that the bells at once
be struck backwards to break the spell,
and if by any chance the wind should
catch the bells and swing them all the
way around, or if they strike nine bells,
it is believed that it will be the last of
that ship.

All good warships go to the "shores
of Fiddler's Green" as a final resting
place. Just where this mythical harbor
is situated no geographer has yet decid-
ed. It is in every way the antithesis of
"Davy Jones' locker." A warship
which goes down in battle with her
flags flying, as occurred several times
during the civil war, goes to "Fiddler's
Green."

The tattooing habit, of course, very
common in the navy. It is believed that
an arm or a leg decorated with the de-
sign of a gun or a sword or some such
design will never be lost in battle.—
San Francisco Call.

gencies. Now, if I take this one, they'll

THE SUGAR MEETING.

One Sugar Beet Factory Means That More Will Be Built Here.

BEST LOCATION IN STATE.

C. M. Garrison, a Bay City Man, Is Thoroughly Enthusiased Over the Prospects Here.

The meeting to be held at Conkey's hall at 2 o'clock next Saturday afternoon should be attended by every farmer and every citizen who has the interest of Benton Harbor at heart. Addresses will be made by expert sugar men and the plan will be thoroughly explained.

C. M. Garrison, a resident of Bay City, who was instrumental in building in that city the first sugar beet factory in the state, has consented to manage the campaign for a factory here and he said this morning that it was certain that Benton Harbor would secure the factory.

When one factory is secured it will not stop there. Other capitalists will come here and other sugar factories will be built. When it is found by experience that this is a desirable site for sugar factories there will be no trouble in securing these institutions. Beets can profitably be shipped to a factory 75 miles away. The sugar can be shipped from Benton Harbor to Chicago cheaper than from the suburbs of Chicago to the wholesale houses.

Mr. Garrison says that there will be no trouble to secure the land. Germans will follow beet factories. A colony has already located at Bay City and also many Nebraska farmers who were afraid to make beet contracts in that state have come to Michigan and rented land about Bay City.

HELPING O'CONNOR CO.

The Steamer State of Ohio Now Making Money.

The O'Connor transportation company is gratified over the fact that the steamer State of Ohio secured the contract to fill the season on the run of the disabled Manitou.

The O'Connor people chartered the boat for the season and while she ran from Chicago to St. Joseph she lost a bundle of money every day. The steamer is now making more than the original charter price paid by the O'Connor company and this profit will be set to the credit of the O'Connor company toward paying the loss made by the boat while on the St. Joseph run.

THE CURFEW LAW AGAIN.

W. C. T. U. Will Consider the Question.

The W. C. T. U. will meet this week at the usual time and place. A curfew bell ordinance will again be considered as a suitable means to have children at home at a proper time in the evening. E. M. Bass, secretary.

A BRIGHT BOY?

Took \$22 From His Mother and Hid It In the Grass.

A little boy 7 years old, the son of Mr. and Mrs. Keaster living on Pearl street, St. Joseph, deserves a good spanking and in all probability has or will get it. Yesterday he visited the room where his mother kept her purse and took a roll of bills amounting to \$22. He was not observed and took the money to the rear of one of the photograph galleries near the boat dock and hid it in the grass.

Last night the boy's mother missed the money and imagined that the house had been visited by burglars until her young hopeful told her that he took and hid it. He led the way to the place where he had put the roll of bills and it was gone. While searching in the grass one \$10 bill was found and this morning a colored man found a \$20 bill in Wallace's lumber yard where it was carried by the wind.

Wants Examination.

James Vanderbeck, charged with assault with intent to commit less than the crime of murder, was arraigned in Justice St. Clair's court yesterday and demanded an examination. He was placed under \$250 bonds and his examination is set for next Monday at 9 o'clock.

Food for Reconcentrados.

Washington, Aug. 16—The government is carrying on rapidly the work of providing the Cuban army and the destitutes with subsistence supplies. Large shipments were made yesterday from Tampa and Miami for Santiago to be followed quickly by other cargoes.

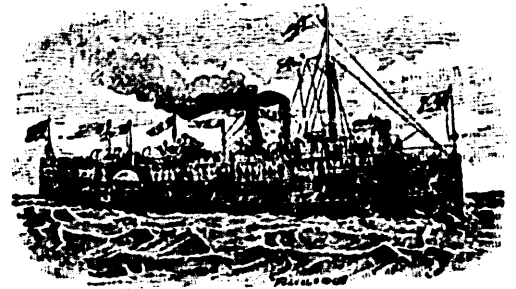

Special Meeting.

The board of public works will hold a special meeting tomorrow evening to consider the advisability of extending the water mains across the canal.
